While the ride is in operation, **the attendant shall always watch the riders.** No roughhousing or horseplay should be tolerated. No somersaults, diving, wrestling, flips, or rough play shall be permitted at any time. No climbing on the nets or walls is allowed.

The attendant must strictly enforce the rules posted on the warning sign.

The attendant should assist the riders while they exit the ride.

The attendant must remain in control of the ride at all times.

Emergency Procedures Emergencies can arise for various reasons. The following are a few examples of emergencies and how they can be handled. This is strictly a guide...please use common sense when an emergency occurs.

Weather Bad weather can arrive in the form of rain, lightning or strong wind. In each case, you want to evacuate the ride as quickly and safely as possible. Remain Calm! If you panic, your riders may also panic. Stay calm and stay focused on your job, which is to help your riders exit the ride quickly, but in an orderly fashion. After everyone has exited the ride, deflate the ride by turning off the blowers or fans.

Loss of Electrical Power If a loss of power occurs the ride will slowly start to deflate. Remain Calm! You will have ample time to help your patrons quickly and safely exit the ride. This situation tends to cause panic...unless the operator stays calm and relaxed. Talk calmly to those inside the unit telling them not to panic while you are helping them walk out. Check to see if the blowers have come unplugged or the cords are unplugged from the outlet. If so, plug them back in, press the reset button on extension cord and the ride will re-inflate. Contact or have someone contact Montana Premiere Entertainment at 406-697-4301 to check the problem. Do not leave the ride unattended.

Damage If the ride becomes damaged while in your operation, write down what happened, when, and any other details you observed and turn contact Montana Premiere Entertainment immediately. Do not attempt to continue to operate the ride.
